☑ Gun Tests RecommendS: our pick ☑

The SBE II featured the highest price tag of the trio, but its performance, comfort and versatility put it on the podium's center stand. If any shotgun is worth a mid-four digit price tag, it's this one.

The Benelli SBE II's ComforTech stock is remarkably absorbent when it comes to recoil.

The grips on the Benelli SBE II are dimpled rather than checkered, which gives the hands good purchase, wet or dry. The Benelli Super Black Eagle II comes in black synthetic, camouflage or walnut stocks.

The sleek lines of the 7-pound Benelli SBE II are possible because the gun has no bulky gas-operated cycling system.
