Slide.....	Matte Stainless Steel
Grip.....	Black Polymer
Trigger Pull Weight Double Action.....	7.5 lbs.
Trigger Span Double Action.....	2.6 in.
Warranty.....	Lifetime
Telephone.....	(800) 331-0852
Website.....	www.smith-wesson.com
Made In.....	USA

Above: The rear sight was a miniature reproduction of a popular target sight. The sight picture was vivid beyond its scale, in our view. Note the heavy molded look to the frame.

Above: Right to left, the thumb safety, slide stop, and takedown latch were positioned along the left side of the frame. The magazine release, arrow, was shielded from unwarranted contact by a ridge and a heavy detent spring. Somewhat heavier than its competitors, the Bodyguard felt rigid in the hand.

Above: The laser was controlled by membrane-style buttons found on either side of the frame. Press once for a solid beam and twice for a pulsing, strobe effect. Pressing a third time turned the unit off. Top right: The integrated laser (by Insight Technologies) was powered by two No. 357 batteries.
