

WALTHER G22 .22 LR, \$399

☒ Gun Tests Recommends: don't buy ☒

Some shooters will think this is a Conditional Buy, but the sights, trigger and balance were downsides for us.

SPECIFICATIONS

OVERALL LENGTH.....	28.75 IN.
BARREL LENGTH.....	20.0 IN.
DROP @ COMB.....	1.0 IN.
DROP @ HEEL.....	1.0 IN.

SIGHTS.....	ADJUSTABLE REAR
TRIGGER PULL WEIGHT.....	3.5 LBS.
WARRANTY.....	ONE YEAR
TELEPHONE.....	(800) 372-6454
WEBSITE OR EMAIL.....	WWW.WALTHERAMERICA.COM

Located in the top of the stock, the bolt and action of the Walther do not provide the easy access that our test group would prefer in the case of a malfunction. Unlike the Browning, single-shot operation was very difficult.

We were very pleased with the large, easy-to-use ambidextrous safety on the Walther. Its location just above the trigger (arrow) is a plus.

The solid black sights were a little hard to use and did not provide quick and easy target acquisition. We would recommend the installation of some type of optics. Here, the G22 wears a standard riflescope, but a dot sight would probably work better.
