

## GUN TESTS REPORT CARD

### **Weatherby Stainless Vanguard .270 Win., \$673**

#### **GUN TESTS GRADE: A**

The accuracy of this rifle with factory ammunition was the key selling point in our team giving this rifle top marks. Handling ability and comfort in shooting all the ammunition were rated as top notch. As noted, the custom Accubrake is well worth the additional fee as a recoil-reducing feature.

### **Remington Model 700 SPS .270 Win., \$620**

#### **GUN TESTS GRADE: B**

There were no problems with functioning and performance of the rifle, although we would have preferred better groups from the factory ammunition. A little fine tuning would make this firearm an excellent hunting tool.

### **Savage Model 114 Classic .270 Win., \$731**

#### **GUN TESTS GRADE: B-**

The Accutrigger feature on this rifle found favor with our group. The more we became accustomed to the feature, the better the rifle performed. We did encounter loading problems with the magazine and would recommend a change in the design.
