

SPRINGFIELD TRP LIGHT RAIL MODEL PC9105LP 45 ACP, \$1829

GUN TESTS GRADE: A-

The Springfield Armory TRP's heavy-duty frame and bull barrel provided flawless performance and very good accuracy. It also featured an integrated accessory rail for a weapon light. Prospective buyers should make sure they are comfortable with its belt-sagging 45-oz. weight and heavily textured grip panels, however.

Right: We found the extra gear packed included with XD40 to be a functional bonus, shown here with holster and magazine carrier.

Right: The three-lug accessory rail allowed us to mount weapon lights like this Insight Tech-Gear WX150, which features a strobe function.
