**The 18-round magazine protruded from the bottom of the grip frame. But clever application and design of the basepad turned it into a stylish and valuable grip extension.**

**The SP-01 pistols are based on the CZ 75 pistol. The primary difference was the long dustcover frame (arrow), which adds recoil-fighting weight to the muzzle end.**

**The lined and extended target sight was a big improvement over the original CZ 75 component.**
