

GUN TESTS REPORT CARD

Taurus Raging Bull 444B8 .44 Magnum, \$625

GUN TESTS GRADE: A

Built to handle much heavier calibers, the Raging Bull was the most comfortable and accurate at the lowest price.

Ruger Super Redhawk KSRH-9 .44 Magnum, \$888

GUN TESTS GRADE: B+

This was an extremely consistent shooter with greater potential, in our view. It needs a more suitable grip, however. Integral scope base and supplied rings make its price more appealing.

Smith & Wesson Model 29 Classic 163640 .44 Magnum, \$964

GUN TESTS GRADE: B

This is another consistent shooter with perhaps the best trigger overall. But recoil was very high, too high for the supplied grip. Also, its high price, marginally offset by the drilled and tapped frame, knocks its rating down some.
