

KIMBER AEGIS II 9MM, \$1195
GUN TESTS GRADE: A-

Great looks plus excellent point-and-shoot handling are its strongest points. Slick and snag-free first-class checkering added grip where it counted most.

Right: Features like 30-ipl checkering on the front strap (20 ipl on the back), slim wood grips, a low-mass flush-fit hammer, minimal thumb safety, cocking serrations on the rear sight, and a complete smoothing of all the edges including a forward radius on the magazine release (arrow) makes the Aegis II one sophisticated pistol.

Right: The slide was flat topped to reduce mass and speed cycling. Night sights were standard.
