

# SMITH & WESSON M&P 15-22 811030 22 LR, \$569

## GUN TESTS GRADE: A

Of course, the 15-22 can't compare to the AR57 PDW in a self-defense situation—the Secret Service isn't going to pack 22 LR for close-in defense. But as a trainer, the 15-22 is much cheaper to shoot, and the whole gun costs about the same as a used 57 upper.

### SPECIFICATIONS
