

KEL-TEC P32PK 32 ACP, \$361

Gun Tests grade: A-

A good choice for deep concealment; anyone trained on a double-action-only handgun will find the P32PK to be a most suitable backup.

CAPACITY.....	7+1		
MAXIMUM WIDTH	0.8 IN.		
GRIP THICKNESS (MAX)	0.7 IN.		
GRIP CIRCUMFERENCE (MAX).....	4.3 IN.		
FRAME	BLACK POLYMER		

The only tool necessary to remove the top end of the P32 design was a case rim.

The action and the support rails of the Kel-Tec pistol were housed in an aluminum sub-frame held inside the narrow lightweight grip.

The polymer guide rod looked flimsy, bowing under the push of the recoil spring. But the P32PK was the only pistol in the test to run without a single malfunction.
