

FNH USA FNAR LIGHT BARRELED RIFLE NO. 3108929250 308 WIN., \$1821

GUN TESTS GRADE: B

An excellent value. We had to downgrade it because it would not tolerate two of our test rounds.

Two additional butt pads, two additional combs, and a selection of shims assured that the FNAR will fit any shooter.

The fluted barrel was surrounded by a polymer fore-end that featured helpful checkering, and accessory rails on three sides. The bottom rail also had a sling stud that could be used to attach a bipod.
