

SPRINGFIELD ARMORY LOADED M1A MA9226 308 WIN., \$2363

GUN TESTS GRADE: B+

We think this rifle did the best job of handling the powerful 308 round. Options from the new custom rifle shop should increase its popularity.

Adaptation of the M25 Whitefeather scope mount was pricey but solved the problem of mounting an optical scope on the M1A platform.

Left: The Springfield Armory nylon cheek piece was just the right height and comfortable to use. The straps never came loose or got in the way. Best of all, the cheek piece stayed in place.
