

HIGH STANDARD 1911A1 HSTX1911 45 ACP, \$480

GUN TESTS GRADE: B

The High Standard is worth its modest price, but it is a little rough around the edges. Just the same, the High Standard will get the job done. The trigger action is flawless.

Above right: The enlarged ejection port of the High Standard is a pleasant bonus in an inexpensive pistol. The High Standard uses a cast frame and slide and is a little rough on examination.
