

SPRINGFIELD ARMORY STAINLESS GI PW9151LP 45 ACP, \$693
GUN TESTS GRADE: C

The Springfield GI was the prettiest Springfield tested, with bright stainless finish and nice grips. Unfortunately, it fell short in performance with a heavy trigger and break-in malfunctions.

Right: *The finish of the stainless GI Springfield was flawless, but beauty was only skin deep, we found. It was identical in features to the Springfield GI opposite, but the stainless gun didn't run right until 100 rounds went through it.*
