Time to Install.....	3 mins. 30 secs.
Instructions Included.....	Yes, on clamshell packaging
Included Tools.....	Allen hex-head key

Above: We thought the Phoenix was a soft shooter, and it certainly was a breeze to install. Inset: The included shell carrier gave it an edge over the Mesa.

Right: The Phoenix was a snap to snap on. Push the stock onto the receiver, use an included bolt and wrench, and screw until tight.

Left: A forend was included, but we liked the original better. We had to break off some pieces to make it fit.
