

BUSHNELL ELITE 3200 3-9X40MM DOA 600 NO. 323940B, \$359
GUN TESTS GRADE: A

Our shooters felt comfortable and confident taking a long distance shot with the Bushnell, but some felt the aiming points in the 500- and 650-yard range on the Elite 3200, as well as the others scopes, were similar to 120- and 140-mph marks on a vehicle's speedometer—perhaps extraneous and not likely used.

SPECIFICATIONS

LENGTH.....	12.6 IN.
EYEPIECE DIAMETER.....	1.6 IN.
TUBE DIAMETER.....	1 IN.
