

S&W BODYGUARD 380 NO. 109380 380 ACP, \$419

GUN TESTS GRADE: B

Not a pretty gun, the 380 Bodyguard had a busy left side. Its plain right side held the button for the laser. The ugly exterior conceals a design very similar to that of the Kel-Tec P3AT. The Bodyguard is DAO, and its trigger pull at 12 pounds did not please us.

Overall Length	5.2 in.
Overall Height	4.0 in.
Barrel Length.....	2.75 in.
Sight Radius	4.3 in.
Front Strap Height.....	1.7 in.
Back Strap Height	2.5 in.
Weight Unloaded	12.5 oz.

Trigger Pull Weight	12 lbs.
Trigger Span	3.0 in.
Warranty	1 Year
Telephone.....	(800) 331-0852
Website.....	Smith-Wesson.com
Made In	USA

Getting the gun apart was very easy. The takedown lever, arrow, pops out with no tools needed. The insides were well and cleanly made. The design included a safety that didn't work well.

We found it hard to put this safety into the up, or Safe, position as shown, but it came off easily enough. It will surely give some comfort to those who simply pocket these small guns.
