

# UTAS UTS-15 12-GAUGE SHOTGUN, ~\$1200

## GUN TESTS GRADE: B

Only two malfunctions in more than 500 rounds of multiple-weight shotshells. Odd loading sequence for one of the tubes.

We liked how the gun operated, but the high price and the availability of a less-costly Saiga moves this down a notch.

Action.....3-in. Pump  
Overall Length.....28.3 in.  
Barrel Length.....18.5 in.  
Length of Pull.....12 in.  
Weight (Unloaded).....6.9 lbs.

Warranty.....1 Year Limited  
Telephone.....(847) 768-1000  
Website.....UTASTurk.com  
Made In.....Turkey

**Above: Don't take this wrong: This failure to feed was one of only two bobbles we had out of more than 500 rounds fired.**

**Above: Most of the UTAS-15 was manufactured from high-strength polymer. We tried breaking parts reputed to fail, but couldn't.**

**Its cool looks shouldn't overshadow the functional aspects of the UTS-15. At right, a breaching brake.**
