

## WINCHESTER MODEL 101 O/U 12 GA, \$900

Gun Tests grade: A

We'd add screw-in chokes and be very happy with this gun, which had exceptional handling, easy assembly and disassembly, good trigger breaks, and dependable function.

The machine work on the internal parts of the Winchester was a nice touch, and the smoothness of the action was appreciated during our test.

Both of the test guns had nearly identical dimensions, although we liked the fit of the Winchester just a little bit better. Note the slim grip that was a pleasure to hold when handling the shotgun.

Slimmer and trimmer than the Charles Daly, we liked the feel of the forearm that provided a solid foundation for moving the shotgun through targets.

The 28-inch barrels of the Winchester and overall balance provided an excellent platform for handling all types of targets. Part of the target-busting performance could be
