

SIG SAUER P250 COMPACT FDE NO. 2509205 9MM, \$795

GUN TESTS GRADE: B+

A cinch to shoot accurately, but the length of its stroke requires special training to build speed and ensure safety. Modular design offers a lot of utility.

WEBSITE OR EMAIL	WWW.SIGSAUER.COM

With the slide locked back and the latch rotated, the top end was ready to be removed. Note the polished area near the muzzle. That's just one point of lockup shared by our three pistols. There was plenty of room for a 90-lumen Streamlight TLR 3.

Our P250 pistol was a limited-edition model featuring a Flat Dark Earth grip module. But it was the action works, cloaked by the grip module, that was the serialized firearm. A window was cut into the side of the module to display the number.
