

The eXo holster is well made of heavy Kydex and should outlast the user. However, the eXo holster is unyielding and features a shape not all found comfortable (above).

The belt clips (arrow, above right) of the eXo holster offered a surprising degree of adjustment for ride in the pants. This holster has much merit for specific applications. Right: Changing the eXo holster from an OWB to the IWB took just moments. We gave this a B grade because not all shooters took to it. But for those whom it suits, it's a Best Buy.
