

**RUGER SR1911 NO. 6700 45 ACP, \$799**

**GUN TESTS GRADE: A-**

**The Low Glare finish was handsome and remarkably dirt resistant. Personal preferences may be the only points of contention. Fit and finish were outstanding.**

**SPECIFICATIONS**

Website.....	www.Ruger.com
Manufactured In.....	USA

**Right: The SR1911 had the most heavily relieved trigger in our three-gun test. It was made from aluminum. The original trigger was steel, and it's shown here in the white, and is available from [www.Cylinder-Slide.com](http://www.Cylinder-Slide.com).**

**Above: Our Ruger SR1911 offered the most pronounced magazine release among our pistols (arrow). It was extended compared to the original button as shown on the Cylinder & Slide 100th Anniversary Edition (right). We felt the Ruger release's detent spring was unnecessarily heavy. Note the solid trigger and glassy blue finish on the 1911 retro pistol.**

**Left: Ruger's supplied 8-round magazine appeared to seat slightly ajar. But it was buttressed to the front strap and remained tightly in place.**
