

LANBER 2097 SPORTING LUX 12 GAUGE, \$1099

Gun Tests grade: A-

Overall value should convince many buyers to choose a new-in-box Lanber over a used edition of a higher-priced brand.

Elaborate scroll work was tasteful and better than what we would expect in this price range. Also, the quality of the Lanber's wood was much better than its competitors. The Moroccan walnut should hold up to custom stock-fitting operations, such as bending.
