

COMMAND ARMS UPG16, \$40

Gun Tests grade: C-

We found the Command Arms UPG16 lacking in both fit and function. The removable grip panels provided a pinch point when installed, and the removable storage plug removed itself during use. We'd pass on this model.

WEBSITE..... WWW.COMMANDARMS.COM

The UPG16 features three interchangeable panels each for the front and back of the grip.

The UPG16 looked comfortable, but gaps between the grip panels were pinch points. Inconsistent molding led to flashing on the grip panels.
