

FALCON INDUSTRIES ERGO GRIP AR15/
M16 GRIP KIT-SUREGRIP, \$24

Gun Tests grade: B-

We liked the pencil-eraser-like feel of the ERGO Suregrip, but disliked the ill-fitting bottom storage plug and tether. Check the fit and finish, look for the newly redesigned bottom cap version, and it may be right for those preferring a cushioned-grip design. Ambidextrous, right-hand only, and left-hand only models available.

SPECIFICATIONS

WEBSITE WWW.ERGOGrips.COM

The Ergo grip had an intriguing texture and cushioned feel, but a storage cap that wouldn't stay fastened lowered its grade.
